PART NO: POS M110 • **CHASSIS CODE:** 996

DFV

A more than 30 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over.

We have also added a clever light-weight design with a majority of the parts in aluminium and on top of that all shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a 2-year limited warranty on all of our products - worldwide.

Öhlins Road & Track team has extensively tested a wide variation of springs to find the right balance between road and track use. By testing in different conditions on road as well on track, the listed spring rate is what we strongly recommend you to use.

GENERAL FEATURES

- > DFV (Dual Flow Valve)
- > Rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2 year limited warranty
- > Height adjustable
- > Approximately 20mm lower than standard

FRONT FEATURES

- > McPherson strut
- > Single bleed adjuster
- > Spring preload adjuster
- > Coil Springs (70 N/mm)
- > Dustcovers
- > Use with original top mounts

REAR FEATURES

- > Conventional Shock Absorber
- > Single bleed adjuster
- > Spring preload adjuster
- > Coil springs (140 N/mm)
- > Dustcovers
- > Use with original top mounts
